## **Re British Juggling Convention – Bodmin 2006**

I have recently worked with the BJC 2006 organiser, Hayley Kneale on a public juggling event that was a part of the 2006 Convention.

Hayley contacted me at the end of 2005 with regard to using the public square, Mount Folly, as one of the BJC's venues.

From the initial contact, working with Hayley was extremely satisfying. Her management skills and organisational abilities were outstanding as was her enthusiasm and dynamism. I was kept informed at every stage and given detailed information that enabled me to fulfil my tasks against, and fitting in with, her time schedule.

The setting-up and running of the public performance was organised and carried out by the jugglers themselves. Their professionalism, planning and forethought regarding each and every detail ensured the event ran smoothly, safely, was watched by a very large crowd, and was a great success.

Such was their consideration that, after the event, the jugglers cleared, tidied and replaced everything so much so, it was as if they had never been.

As a Local Government Officer I have worked with many statutory and voluntary agencies on projects, events and activities but I can assure you that I have rarely encountered such professionalism, excellent planning and organisation and such cheerful helpfulness.

If you require any further information regarding my involvement with British Jugglers' Convention of 2006, please do not hesitate to contact me.

Yours sincerely

Patricia Wright  
Shire Hall Deputy Manager
